

To Whom It May Concern:

The All-Pro Home Inspection team is taking the COVID-19 issue very seriously. We ARE performing home inspections as we fall into the category of service companies exempted from the stop-work order alongside plumbers, carpenters, electricians, handymen, exterminators, and other companies whose work relates to the safety of dwellings.

To protect our employees, clients and the occupants of the homes we inspect, we are taking the following precautions:

- We are requesting that all parties attending inspections observe social distancing and wear personal protective equipment as required by county, city and state government.
- Our inspectors are cleaning their equipment before and after each inspection to reduce the likelihood of transmitting viruses from one house to another.
- Our inspectors are wearing personal protective equipment to further reduce the chances of spreading viruses from one house to another.
- Our inspectors are wiping down surfaces they may touch during an inspection such as faucets, thermostats, appliances, etc.
- We are happy to provide summaries via phone at the end of each day and to answer questions that may arise as quickly as possible.

We appreciate your cooperation and invite you to forward any questions to us at 615-337-1277 or email us at [customercare@allprohometn.com](mailto:customercare@allprohometn.com).

Sincerely,

*Jeremy B. Martin*
